Statement of findings

Northern College of Acupuncture
UKPRN: 10004740

TEF Bronze

This award was made in June 2019.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that its students achieve good outcomes. Levels of full-time student satisfaction with teaching on my course are exceptionally high and above the provider's benchmark, with high levels of satisfaction for academic support. Rates for full-time student continuation and progression to employment or further study are consistent with the provider's benchmarks, with high rates of progression to highly skilled employment.

The Panel considered the provider's submission and supplementary metrics, where appropriate, in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- extensive flexible and personalised provision for mature, non-local students that secures good engagement and commitment to learning and study
- a successful and valued individualised support system that caters for students with a declared disability
- provision that allows for professional accreditation that is valued by both employers and students.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Bronze award.
