TEF Silver

This award was made in June 2019.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that students achieve excellent outcomes. Student satisfaction levels are consistent with the provider's benchmark. Progression to employment, highly skilled employment, or further study are also consistent with the provider's benchmarks. Whilst continuation rates are exceptionally low and below the provider's benchmark, the Panel judged that this was addressed in the submission.

The Panel considered the provider's submission and supplementary metrics, where appropriate, in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- an institutional culture that facilitates, recognises and rewards excellent teaching through, for example, the provider's focus on continuous teaching enhancement processes
- high quality physical and digital resources that are used by students to enhance learning
- strong links with employers and support for employability through a range of innovative practices which enable students to acquire the knowledge, skills and understanding that are highly valued by employers.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Silver award.
