UKPRN: 10004772

TEF Bronze

This award was made in June 2019.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that most students achieve good outcomes. In particular, the Panel noted that the provider achieves exceptionally high rates for employment or further study, which are above the provider's benchmark. However, progression to highly skilled employment or further study is below benchmark. Satisfaction regarding teaching on my course is exceptionally low and below the provider's benchmark. The Panel judged that this was partially addressed in the submission.

The Panel considered the provider's submission and supplementary metrics, where appropriate, in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- an institutional culture that facilitates, recognises and rewards excellent teaching
- the provider's strong widening participation profile and its commitment to support students from all backgrounds to achieve positive outcomes
- its collaborative work with employers to equip students with the right skills to enable them to progress to employment and, in particular, respond to the challenges of its apprentice cohort.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Bronze award.
