Statement of findings

East Surrey College
UKPRN: 10002130

TEF Bronze

This award was made in June 2019.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that most students from all backgrounds achieve good outcomes. However, the progression of full-time students to highly skilled employment or further study is exceptionally low and below the provider's benchmark.

The Panel considered the provider's submission and supplementary metrics in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- an institutional culture that facilitates, recognises and rewards excellent teaching through a coherent approach to staff development; scholarship which has a positive impact on the quality of teaching and learning
- a robust approach to ensure that students enjoy a personalised experience with valuable support mechanisms which secures good engagement and commitment to learning and study from most students
- a range of strategies and multiple initiatives to further increase the progression of students to highly skilled employment or further study.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Bronze award.
