UKPRN: 10007144

TEF Bronze

This award was made in June 2019.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that most students achieve good outcomes. In particular, the Panel noted that levels of student satisfaction and continuation rates are consistent with the provider's benchmark. The Panel also noted that progression to employment and further study is exceptionally low and below the provider's benchmark, and that progression to highly skilled employment or further study is also low and below the provider's benchmark. The Panel judged this was partially addressed in the submission.

The Panel considered the provider's submission and supplementary metrics, where appropriate, in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- the physical and digital resources in place that are used by students to further learning
- student engagement with the Research Internship Scheme, which enables students to be occasionally engaged with developments from the forefront of research, scholarship or practice
- the Equality, Diversity and Inclusion Strategy, which embeds inclusion across its provision in order to create a student experience which supports all learners

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Bronze award.
