TEF award summary
Statement of findings

London Studio Centre Limited
UKPRN: 10004079

TEF Gold

This award was made in June 2019.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that full-time students from all backgrounds achieve consistently outstanding outcomes. In particular, the Panel noted that levels of student satisfaction with teaching on my course, assessment and feedback, and academic support are exceptionally high and above the provider's benchmarks. Progression to employment or further study is also exceptionally high and above the provider's benchmark, while progression to highly skilled employment or further study is above the provider's benchmark. Continuation rates are consistent with the provider's benchmark.

The Panel considered the provider's submission and supplementary metrics, where appropriate, in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- curriculum design which supports outstanding personalised provision and secures the highest levels of engagement and active commitment to learning and study from students
- teaching and assessment practices which provide high levels of rigour and stretch, ensuring all students are challenged to achieve their full potential
- consistent and frequent engagement by students with developments and opportunities at the forefront of professional practice and research
- excellent physical and digital resources which support students' learning, including investment in performance opportunities
- outstanding preparation of students for employment or further study, including the embedding of skills development in the curriculum, preparation for portfolio careers, and tailored support for professional development.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Gold award.
