Statement of findings

Leeds City College
UKPRN: 10024962

TEF Bronze

This award was made in June 2019.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that most students achieve good outcomes. In particular, the Panel noted that student satisfaction levels are consistent with the provider's benchmark. However, continuation for full-time students is below benchmark; the Panel judged this was partially addressed in the provider's submission. Progression to employment, highly skilled employment or further study for all students is consistent with the provider's benchmark.

The Panel considered the provider's submission and supplementary metrics, where appropriate, in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- a curriculum that supports the development of student employability skills through embedded modules
- opportunities for student engagement in employer focused research
- a strong emphasis on the student voice which has contributed to and informs learning resource allocation
- effective, personalised support enabling most students to achieve good outcomes and prepare them for the world of work.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Bronze award.
