TEF Silver

This award was made in June 2019.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that students from all backgrounds achieve excellent outcomes. Student satisfaction with the provision of academic support is exceptionally high and above the provider's benchmark, while satisfaction with teaching and assessment and feedback are consistent with the provider's benchmark. The rates of continuation and progression to employment and highly skilled employment are consistent with the benchmark for all students.

The Panel considered the provider's submission in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- the provision of high quality advice and guidance that is valued by students
- the embedding of employability skills within the programmes and the Employability Achievement Record that enables students to acquire knowledge, skills and understanding that are highly valued by employers
- programmes that provide intellectual stimulation for students and which enable them to apply what they have learnt
- an institutional culture that facilitates, recognises and supports the development of excellent teaching
- an admissions process and associated study skills training designed to facilitate progression to higher education for all students
- the availability of course specific and library resources that are used by students to enhance learning.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Silver award.
