TEF award summary
Statement of findings

Fareham College
UKPRN: 10007928

TEF Bronze

This award was made in June 2019.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that most students achieve good outcomes. Levels of student satisfaction with teaching on my course, and assessment and feedback are low. The Panel deemed this was not addressed in the submission. Levels of student satisfaction with academic support are consistent with the provider's benchmark. Rates of progression to employment or further study are high and above the provider's benchmark, while those to highly skilled employment or further study are above the provider's benchmark.

The Panel considered the provider's submission and supplementary metrics, where appropriate, in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- a curriculum that provides sufficient stretch for ensuring students acquire knowledge, skills and understanding for supporting local employer needs
- a growing culture of student engagement, with a focus on the student voice through formal and informal mechanisms which strengthen the development of a higher education community
- the implementation of an institutional culture that recognises and supports teaching staff, including a robust appraisal scheme, support for gaining higher level qualifications, and a range of continuing professional development events.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Bronze award.
