TEF Bronze

This award was made in June 2019.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that most full-time students achieve good outcomes. In particular, the Panel noted that student rates of progression to highly skilled employment or further study are above the provider's benchmark. Continuation rates are consistent with the provider's benchmark. However, levels of student satisfaction with teaching on my course, assessment and feedback, and academic support are exceptionally low and below the provider's benchmark. The Panel judged this was partially addressed in the submission.

The Panel considered the provider's submission in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- an institutional ethos of ensuring student engagement and valuing the student voice in quality assurance processes
- assessment and feedback practices which provide sufficient stretch to ensure most students make progress
- opportunities for student engagement with professional practitioners from the music industry in order to secure good levels of commitment to learning and study
- personalised learning opportunities and targeted support for student progression to highly skilled employment or further study.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Bronze award.
