TEF award summary
Statement of findings

The Markfield Institute of Higher Education
UKPRN: 10023452

TEF Silver

This award was made in June 2019.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that students achieve excellent outcomes. Based on the available data, the provider metrics are broadly consistent with its benchmarks. The provider metrics also indicate low rates of progression to employment or further study. The Panel judged this was partially addressed in the submission.

The Panel considered the provider's submission in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- course design and assessment practices that provide scope for high levels of stretch that ensures all students are significantly challenged to achieve their full potential
- appropriate levels of contact time, including outstanding personalised provision, secures high levels of engagement and active commitment to learning and study from students
- high quality physical resources are used by students to enhance learning
- students are frequently engaged with developments from the forefront of research, scholarship or practice, and are consistently involved in these activities
- an institutional culture that facilitates, recognises and rewards excellent teaching has been implemented at the provider.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Silver award.
