Statement of findings

St Marys College
UKPRN: 10006226

TEF Bronze

This award was made in June 2019.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that most students achieve good outcomes. In particular, the Panel noted that student satisfaction and rates of progression to employment or further study are high and above the provider's benchmarks. Continuation rates are exceptionally low and below the provider's benchmark; the Panel judged that this was partially addressed in the submission. Progression to highly skilled employment or further study is also below the provider's benchmark and the Panel judged that this was not addressed in the submission.

The Panel considered the provider's submission and supplementary metrics, where appropriate, in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- well-developed student feedback processes and a culture that encourages student involvement in open and frequent dialogue
- a wide range of mechanisms that support the transition to higher education and provide pastoral and academic support to students, particularly those from underrepresented groups
- the provider's strong commitment to widening participation and its success in providing flexible and accessible study opportunities for its diverse student body.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Bronze award.
