Statement of findings

RTC Education Ltd
UKPRN: 10008455

TEF Bronze

This award was made in June 2019.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider's metrics supplemented by the submission indicate that most students achieve good outcomes. Teaching on my course and academic support are exceptionally high and above the provider's benchmark. Student satisfaction with assessment and feedback is high while continuation rates are above the provider's benchmark. Progression to employment, highly skilled employment, or further study is exceptionally low and below the provider's benchmark. The Panel judged that this was partially addressed in the submission.

The Panel considered the provider's submission in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- a range of effective communication and feedback channels which promote high levels of student engagement and commitment to learning
- personalised support for learning which underpins student continuation
- investment in physical, electronic and human resources which together enhance the learning environment and learning experience of students.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Bronze award.
