Statement of findings

ACM Guildford Limited
UKPRN: 10067853

TEF Bronze

This award was made in June 2019.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that most students achieve good outcomes. However, student satisfaction levels and rates of progression to highly skilled employment or further study are exceptionally low and below the provider's benchmarks. The Panel judged that this was partially addressed in the submission. Rates of continuation and progression to employment or further study are consistent with the provider's benchmarks.

The Panel considered the provider's submission and supplementary metrics, where appropriate, in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- an improved student representative system, which increases support and secures good engagement and commitment to learning and study from most students
- an institutional culture that values teaching and learning, providing mentoring and CPD opportunities for staff
- opportunities for students to work alongside and interact with industry professionals, which enables them to acquire knowledge, skills and understanding that are valued by employers.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Bronze award.
