East Sussex College Group
UKPRN: 10002923

TEF Bronze

This award was made in June 2019.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that its students achieve good outcomes. Levels of full-time student satisfaction with teaching on my course, assessment and feedback, and academic support are consistent with the provider's benchmarks. Rates for full-time student continuation, and progression by all students to employment, highly skilled employment or further study, are also consistent with the provider's benchmarks. Based on the available data, the provider metrics are broadly consistent with its benchmarks for part-time student satisfaction levels and continuation rates.

The Panel considered the provider's submission and supplementary metrics, where appropriate, in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- the provision of employment opportunities for students within and outside the provider, leading to students' acquisition of knowledge, skills and understanding that are valued by employers
- course design and assessment practices that deploy live projects in order to provide sufficient stretch through engagement with local industries and charities, and where students occasionally engage with developments in scholarship and professional practice
- sufficient levels of contact time, including personalised provision, that secure good engagement and commitment to learning and study from most students.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Bronze award.
