Roehampton University
UKPRN: 10007776

TEF Silver

This award was made in June 2019.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that most full-time students achieve excellent outcomes. The provider is consistent with its benchmark for rates of progression to employment or further study, and above benchmark for progression to highly skilled employment or further study. The level of student satisfaction with teaching on my course is consistent with the provider's benchmark, although satisfaction levels with academic support and assessment and feedback are below benchmark. The Panel judged this was fully addressed in the submission.

The Panel considered the provider's submission and supplementary metrics, where appropriate, in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- effective programmes of staff development and an institutional culture of reward and recognition for teaching excellence
- the reduction in the attainment gap for black, Asian and minority ethnic students, in particular through the Reimagining Attainment for All project
- targeted enhancements in assessment literacy leading to improvements in student attainment
- personalisation of timetables and specific support for under-represented student groups underpinning high levels of student engagement
- support for students in gaining work experience and engagement with employers, resulting in high rates of progression to highly skilled employment and positive outcomes over longer career timelines.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Silver award.
