Statement of findings

Cambridge Regional College
UKPRN: 10001116

TEF Bronze

This award was made in June 2019.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that most students achieve good outcomes. In particular, the Panel noted that part-time student satisfaction and rates of progression to employment, highly skilled employment or further study are broadly consistent with the provider's benchmarks.

The Panel considered the provider's submission and supplementary metrics, where appropriate, in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- sufficient levels of contact time and personalised provision that secure good engagement and commitment to study and support students to achieve their educational and professional goals
- measures to facilitate excellent teaching, including the employment of a Teaching and Learning Development Manager and the use of Excellence Coaches and Digital Skills Champions
- effective links with employers and awarding bodies that support student progression to graduate-level employment or further study.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Bronze award.
