TEF award summary
Statement of findings

Reaseheath College
UKPRN: 10005404

TEF Silver

This award was made in June 2019.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that its students achieve excellent outcomes. In particular, the Panel noted that full-time student levels of satisfaction with assessment and feedback, and student support; and rates for continuation and progression to employment or further study, were consistent with its benchmarks. Full-time student satisfaction with teaching on my course is below benchmark, and rates of progression into highly skilled employment or further study are exceptionally low and below the provider's benchmark. The Panel judged that these metrics were fully addressed in the submission.

The Panel considered the provider's submission and supplementary metrics, where appropriate, in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- a flexible, dynamic and personalised high quality learning environment
- programmes which incorporate elements of work-based learning, internship or other opportunities for students to gain valuable experience of work as part of their studies
- a focus on embedding learning in industry standard environments
- high levels of student engagement in on-campus industrial enterprises for developing practical skills and knowledge that are highly valued by employers
- the development of high levels of commitment to learning and study through the Keys to Success personal interactive portfolio involving partnerships between students, careers and wellbeing teams.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Silver award.
