TEF award summary
Statement of findings

Nelson College London Limited
UKPRN: 10030129

TEF Silver

This award was made in June 2019.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that students achieve excellent outcomes. In particular, the Panel noted that levels of student satisfaction with teaching on my course, assessment and feedback, and academic support are exceptionally high. Continuation rates are above benchmark. Progression to employment or further study is exceptionally low and progression to highly skilled employment or further study are below benchmark. The Panel judged that these metrics were partially addressed in the submission.

The Panel considered the provider's submission in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- course design and assessment practices that provide high levels of stretch to ensure all students are significantly challenged, and acquire the knowledge, skills and understanding valued by employers
- personalised learning, including the use of systematic individual learner plans and self-assessment, that achieves excellent outcomes for its students, in particular with regard to retention
- high quality physical and digital resources, for instance, the provider's YouTube channel for posting teaching-related videos, which are appreciated by students and enhance their learning.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Silver award.
