Content of the Register

71. The Register will provide a single, authoritative reference for students, businesses, providers, other regulators, and members of the public about a provider’s regulatory status.
72. The Secretary of State for Education has laid regulations under section 3(6) of HERA¹ to set out the information that must be contained in a provider’s entry in the Register. In addition, the OfS has decided that further information should also be published for each provider in the interests of transparency. Both categories of information are set out in the table below, with those items required by statute identified by an asterisk. We have published a general policy in relation to publication decisions.²

The provider’s unique identifier	The UK Register of Learning Providers assigns a unique UKPRN number to a provider to support the sharing of information about learning providers with government departments, agencies, learners, and employers. This number helps to identify individual providers correctly and will be included on a provider’s Register entry.
The provider’s contact details*	An address, email address, and telephone number at which the provider may be contacted. An address at which the provider carries on its activities, or which is the provider’s principal place of business or which is otherwise suitable for the service of documents on the provider.
The address of the provider’s website*	The address of the principal website maintained by, or on behalf of, the provider. A link between the OfS Register and the provider’s website will enable Register users to check that they are looking at the correct provider and to find further information about a provider’s activities.
