Summary

1. This document describes the algorithms used in the 2019-20 Individualised Learner Record (ILR) data checking tool to:
 - a. Indicate the level of awarding powers held by the awarding body of a qualification.
 - b. Allocate learning aims to broad categories of higher education.
 - c. Indicate learning aims that are recognised for funding purposes by the Office for Students (OfS).
 - d. Indicate whether a student is on a course that leads to teacher qualifications.
2. The 2019-20 ILR data checking tool outputs can be used by higher education providers to verify and correct their 2019-20 individualised student data before submitting final data to the Education and Skills Funding Agency (ESFA).
3. This document is aimed at readers with in-depth knowledge of the data. Readers are advised to have a copy of 'Specification of the Individualised Learner Record for 2019 to 2020' (available from ESFA via <https://www.gov.uk/government/publications/ilr-specification-validation-rules-and-appendices-2019-to-2020>).

Changes from the 2018-19 ILR data checking tool

4. This section describes any changes to the algorithms since the equivalent was published for the 2018-19 data checking tool available here: www.officeforstudents.org.uk/data-and-analysis/data-checking-tools/documentation-archive/. Any changes are shown as **bold and underlined**.
5. The OFSAWARD algorithm has been updated to add two UKPRNs for providers that have recently been granted degree awarding powers.
