Summary

1. This document describes the Higher Education Students Early Statistics Survey 2024-25 (HESES24) comparison files and the algorithms used to generate the data needed to recreate HESES24 from 2024-25 ILR data. Throughout the document, fields taken from the ILR record are shown in capitals.
2. The HESES24 comparison output can be used by staff responsible for individualised data returns at higher education providers to verify and correct their 2024-25 individualised student data before submitting the final data to the Department for Education (DfE).
3. The HESES24 comparison output is formed of two files. These are:
 - a. HESES24 comparison workbook 'HES24_XXXXXXXX.xlsx'
 - b. HESES24 comparison individualised file 'XXXXXXXX_IND_HES24.csv'where XXXXXXXX is the UK Provider Reference Number (UKPRN) for the provider.

Details of how to use individualised files are given on the Office for Students (OfS) website ([Working with individualised files - Office for Students](#)).
4. This document is aimed at readers with in-depth knowledge of the data. Readers are advised to refer to 'Specification of the Individualised Learner Record for 2024 to 2025' (available from the DfE at [Specification of the Individualised Learner Record for 2024 to 2025 - GOV.UK](#)) and 'Higher Education Students Early Statistics survey 2024-25 (HESES24)' ([Higher Education Students Early Statistics survey 2024-25 - Office for Students](#)) when using this document.

Changes to this document

5. We are currently moving to a new data system which will help us streamline our delivery of data insights and improve our publications for you. As part of this, we have updated our documentation with clearer field names. This is our first step towards being able to provide a single source of technical documentation to underpin multiple data publications.
6. When we publish our data checking tool outputs and related individualised files in the future, we will be using the new field names in our documentation. To aid the transition to these new field names, we have included the previous field name in the heading for each algorithm in brackets.
7. If you have any questions or feedback about the changes to this document, please get in touch at providermetrics@officeforstudents.org.uk.

Changes from 2023-24 data checking tool

8. This section describes any changes to the outputs and algorithms since the equivalent was published for the 2023-24 ILR data checking tool ([Data checking tool documentation archive - Office for Students](#) under '2023-24').

9. Any deletions are shown with a ~~strike through~~. Any other changes are shown as **bold and underlined**.

Items removed from the outputs

10. There are several categories of data that are no longer required to inform OfS funding allocations and are no longer collected in the HESES return. As a result, the following derived fields have been removed:
- a. HESAPPRENTICE
 - b. HESREG
 - c. HESRESSTAT
 - d. LENGTH
 - e. HESYATYPE
 - f. HESYAPOP
 - g. HESHTQ.
11. Due to changes in how subject data is returned in the ILR, the following derived fields have been removed:
- a. EXCL64
 - b. HESSPEXCL.

Items added to the outputs

12. The registering_ukprn and teaching_ukprn algorithms have been added in paragraphs 45-47 to enable identification of students taught under a subcontractual arrangement.
13. The price_group_c13_proportion algorithm has been added to the price group algorithms in paragraph 53, as price group C1.3 has been introduced for HESES25.

Other changes

14. The funding_override_fields_flag (HESOVER) algorithm in paragraph 32 has been updated to account for derived fields that are no longer in the outputs:

15. The fundability_status (HESTYPE) algorithm in paragraph 34 has been updated to ensure that postgraduate research students are not categorised as OfS-fundable:

HOMEF	Home fee OfS-fundable	LEARNDEL FAM_SOF1 = 1 or ((funding_domicile_group = UK, IE or (funding_domicile_group = CROWN and DELLOCPOSTCODE ≠ ZZ99 9ZZ) or (funding_domicile_group = OEU and LEARNSTARTDATE < 1 August 2021)) and FUNDLEV ≠ 30, 31 and LEARNDEL FAM_SOF1 = 105 and is_apprentice = 1 and is_funding_recognised_he = 1) and <u>funding_level_of_study ≠ PGR</u>
HOMENF	Home fee non-fundable	(funding_domicile_group = UK, IE or (funding_domicile_group = CROWN and DELLOCPOSTCODE ≠ ZZ99 9ZZ) or (funding_domicile_group = OEU and LEARNSTARTDATE < 1 August 2021)) and LEARNDEL FAM_SOF1 ≠ 1 and not above
ISOV	Overseas	Otherwise

16. The price_group_a_proportion, price_group_b_proportion, price_group_c11_proportion, price_group_c12_proportion, price_group_c2_proportion and price_group_d_proportion (PRGX) algorithms in paragraph 53 have been rewritten because of changes to the way subject data is returned in both the ILR and HESES25.

17. The funding_exclusion_reason_4 (EXCL4) algorithm in paragraph 57 has been updated as follows:

Value	Description	Definition
1	Student explicitly excluded from the HESES student population	FUNDCOMP = 9, BLANK or FUNDLEV = 99, BLANK or MODESTUD = 99, BLANK
0	Otherwise	Otherwise

18. EXCL64 has been removed from the funding_exclusion (HESEXCL) algorithm in paragraph 61.

HESES24 comparison individualised file

19. The individualised file XXXXXXXX_IND_HES24.csv contains the values of all fields used to generate the HESES24 comparison.

20. Fields taken from the 2024-25 ILR return or derived as part of the HESES24 comparison output are shown using the names given in Table 2 and Table 3 respectively.

21. Specific instructions for rebuilding the HESES24 comparison workbook from the individualised file are provided in the HESES24 comparison rebuild document.

price_group_x_proportion (PRGX)

53. The proportion of activity in each price group. In some cases, the proportions for a learning aim (PERCENTAGE1-5) may not equal one. In these cases, we scale them so that their sum is one. Where no proportions have been returned for a learning aim, we split the proportion equally between the number of codes. Where no HECoS codes were found for the learning aim we instead assign the HECoS code 101274 (general studies).
54. The funding method was changed for the 2025-26 funding year so that funding for price group C1.2 was discounted to reflect the proportion of courses in journalism, media studies, publishing and information services offered by each provider.¹ As this information could not be directly obtained from provider HESES24 data, 2023-24 individualised student data was used to determine moderating factors that reflect the proportion of students studying these subjects. These moderating factors have been applied to the price_group_c12_proportion and price_group_c13_proportion fields here for funding reconciliation purposes.

funding_exclusion (HESEXCL)

61. This field indicates whether the student will be included in the HESES recreation. For students excluded from the recreation, funding_exclusion contains the sum of all applicable values from the table below. Students included in the recreation have funding_exclusion = 0.

Value	Description	Definition
1	Student not active in academic year	funding_exclusion_reason_1 = 1

Value	Description	Definition
2	Non-recognised higher education aim	funding_exclusion_reason_2 = 1
4	Student explicitly excluded from the HESES student population	funding_exclusion_reason_4 = 1
8	Student with no activity in the reporting period	funding_exclusion_reason_8 = 1
16	Student on non-standard year of engagement in final academic year	funding_exclusion_reason_16 = 1
32	Student who withdrew before 2 November 2024 or left within 14 days of starting the engagement without completing	funding_exclusion_reason_32 = 1
0	Otherwise	None of the above

62. This field contains the exclusion reason(s) for the student. It is calculated as $(1 \times \text{funding_exclusion_reason_1}) + (2 \times \text{funding_exclusion_reason_2}) + \dots + (32 \times \text{funding_exclusion_reason_32})$. The reason(s) which contribute to the exclusion of a student can therefore be calculated. For example, if $\text{funding_exclusion} = 13$, by subtracting figures from the above table starting at the bottom, we see that the student has no activity in the reporting period ($\text{funding_exclusion_reason_8} = 1$), is explicitly excluded from the HESES student population ($\text{funding_exclusion_reason_4} = 1$) and is not active in the academic year ($\text{funding_exclusion_reason_1} = 1$).

ug_previous_year_count (HESUGPYR)

63. This field shows the number of years of engagement associated with the UKPRN and LEARNREFNUMBER in the 2023-24 ILR, where the value of `detailed_level` in 2023-24 indicates an undergraduate level course, and the learning aim would have been fundable according to the definition of recognised higher education for OfS funding purposes used in HESES24² (i.e. the value of `is_funding_recognised_he` would have been 1). If no 2023-24 ILR data is available for the provider, this field will be blank.

64. The values of `detailed_level` classed as undergraduate level for the purposes of this field are: FIRST, ENHANCED, MEDVETDENT, DIPHE, CERTED, FOUDEG, FDBC, HIGHCERT, CTLLS, DTLLS, PTLLS, CET, DET, UNICERT, HNC, HND, OTHL4_Q, OTHL4_CC, OTHL4_U, OTHL5_Q, OTHL5_CC, OTHL5_U, OTHL6_Q, OTHL6_CC, OTHL6_U, OTHHE_Q, OTHHE_CC, OTHHE_U.

ug_previous_year_2_count (HESUGPYR2)

65. This field shows the number of years of engagement associated with the UKPRN and LEARNREFNUMBER in the 2023-24 ILR, where the value of `detailed_level` in 2022-23 indicates an undergraduate level course, and the learning aim would have been fundable

according to the definition of recognised higher education for OfS funding purposes used in HESES24³ (i.e. the value of is_funding_recognised_he would have been 1). If no 2022-23 ILR data is available for the provider, this field will be blank.

is_funding_entrant (HESNEWENTRANT)

71. This field indicates whether a student is a new entrant. Where a student starts more than one countable year of engagement at the same broad level in the same academic year and could be considered as a new entrant for each countable year, they will be recorded as a new entrant for only one. If one such countable year has an earlier start date than the others the student will be recorded as a new entrant for that countable year.
