- A recording of this session will be available via the OfS website
- Intended audience: provider staff with previous knowledge of HESES
- How to ask a question
 - please use Q&A feature
- Questions about and feedback on the event, please write to
 - events@officeforstudents.org.uk

Today's session

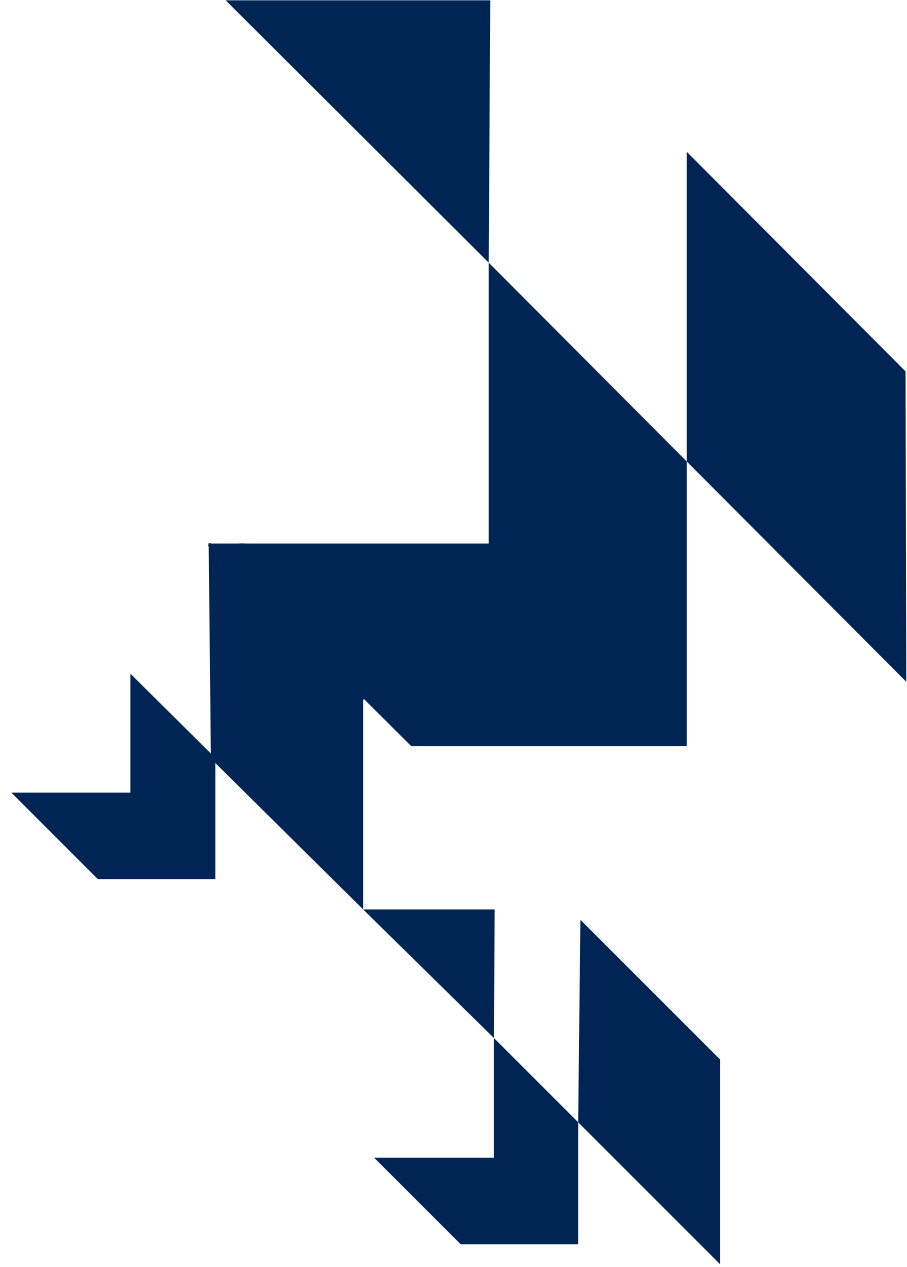

- Changes in HESES25
 - Ross Lawlor, Funding Round Manager
- The new OfS portal
 - Duncan Wannell, Principal Analyst
- Questions and answers
 - Changes to HESES and policy issues related to them
 - Batched wherever possible
 - May take offline if that is more suitable
 - Questions that are very specific to a particular provider should be sent to heses@officeforstudents.org.uk

Changes to data collection for HESES25

Overview of changes for HESES25

Today I'll cover:

- Timeline for the collection
- Why are we changing HESES?
- What is being changed for HESES25?
- The new HESES25 workbook
- Multiplication factors

Detailed in **Changes to 2025 student data surveys to inform funding**

- Search “Changes to 2025 student data surveys” on our website

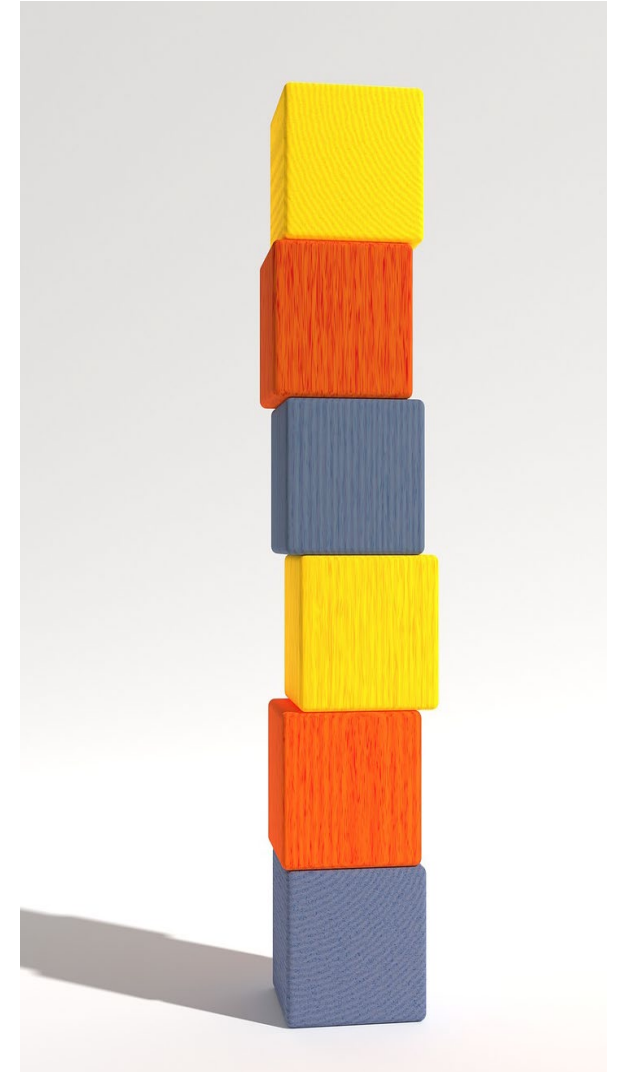

HESES25 – the basics

- HESES25 guidance – to be published end September 2025
- Submission deadline – noon on:
 - 13 November 2025 – further education colleges (FECs)
 - 11 December 2025 - All other providers
- Sign-off deadline – 30 January 2026

Key changes for HESES25:

- Some data no longer being collected
- Some data being collected in different ways
- This means changes to workbook table structure

HESES25 & Multiplication factors combined timeline

Late October 2025	HESES25 workbook available to download from portal
1 November 2025	Census date – further education and sixth form colleges (FECs)
13 November 2025	Submission deadline for FECs
1 December 2025	Census date – all other providers
11 December 2025	Submission deadline for all other providers
30 January 2026	Sign-off deadline for HESES25 data for all providers
13 February 2026	Deadline to submit representations on multiplication factors
Late February 2026	Consider representations
Early March 2026	FTEs to inform funding for 2026-27 agreed

Why are we making changes for HESES25?

Changes to funding for 2025-26:

- No longer providing 5 Targeted allocations:
 - to support Level 4 & 5 provision
 - Intensive PGT and accelerated UG allocations
 - PGT supplement
 - Funding for years abroad
- Re-prioritise high-cost subject funding away from courses in media studies, journalism, publishing and information services.
- Allocate high-cost subject funding and student premium funding so that students attending subcontracted provision are only included in our calculations if the teaching provider is registered with the OfS in the Approved (fee cap) category.

Changes - overview

- Guiding principle – we should only be collecting data if we have a reason to do so.
- In designing HESES25:
 - What can we cut out to reduce burden?
 - What do we need to retain?
 - What additional information do we need to introduce?

The image shows a close-up of a large, multi-column data table, likely a census or survey record. The table is filled with numerous rows of data, including names, numbers, and other identifiers. The text is somewhat blurry, but the structure is clear, with multiple columns of information. The table appears to be a physical document, possibly a printed form or a page from a book, with the data organized in a structured, tabular format.

HESES25 workbook changes – removals

- Due to method changes, we no longer need to collect data on:
 - Sub-levels of UG and PGT
 - Long years
 - Domicile
 - HTQs
 - Years abroad (table 4).
- Also taking the opportunity to simplify collection, so we are removing:
 - the split between pre & post census data numbers (Column 1 & 2)
 - PGR student numbers
 - Domicile (table 5)
 - The Courses table (Colleges only).

This significantly reduces the size of the HESES tables.

HESES24 - column 1 vs column 2

Previous returns:

- Col 1: years started between 1 August and the census date
- Col 2: years *forecast* to start between the census date and the end of the year

HESES25: Same, but no longer a need to return separately. Enter all years expected to start during the academic year.

Previous returns:

- Col 1: years started between 1 August and the census date
- Col 2: years *forecast* to start between the census date and the end of the year

HESES25:

- Same, but no longer a need to return separately. Enter all years expected to start during the academic year.

Removals – FEC specific details

- Removing the column 1/2 split means that the Courses table is no longer needed.
- In previous HESES returns:
 - Column 1 data input through the courses table
 - Column 2 data input directly
- For HESES25, all years input directly.
- Learning aim references are not recorded in HESES.
- HECoS subject data (and price groups) still available from the DfE's 'Find A Learning Aim' search.

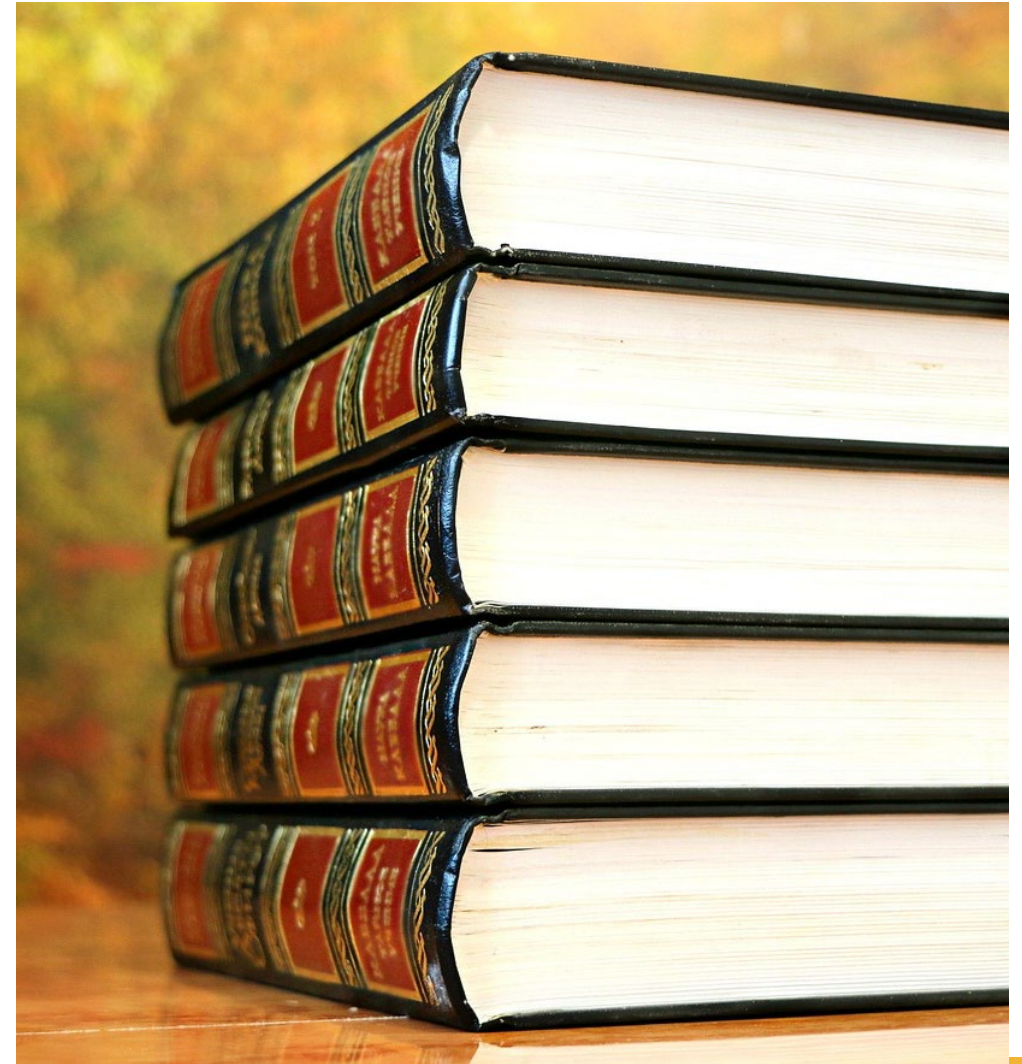

Stays the same (mostly)

- How years of engagement are counted
 - these are no longer differentiated into column 1 or column 2
- Mode of study
- Broad level of study (UG and PGT definitions)
- New entrants – still collected (moved to the main funding tables)
- Collection of NMAH data
- Fee and fundability status - One additional category of non-fundable students:
'Students on courses taught under a subcontractual arrangement where the teaching provider is not registered in the Approved (fee cap) category ***unless*** this is a pre-registration nursing, midwifery and allied health profession course.'

Additional subject data

- Additional price group – C1.3 for media studies, journalism, publishing and information services
- Need to collect subject data at a more granular level. This will:
 - support planning for our review of funding methods
 - support similar government spending review planning
 - give us much more flexibility to respond to any future government guidance on subject priorities.

Collection of data by subject grouping

- Applies to Table 1 (full-time and SWOUT) and Table 2 (part-time)

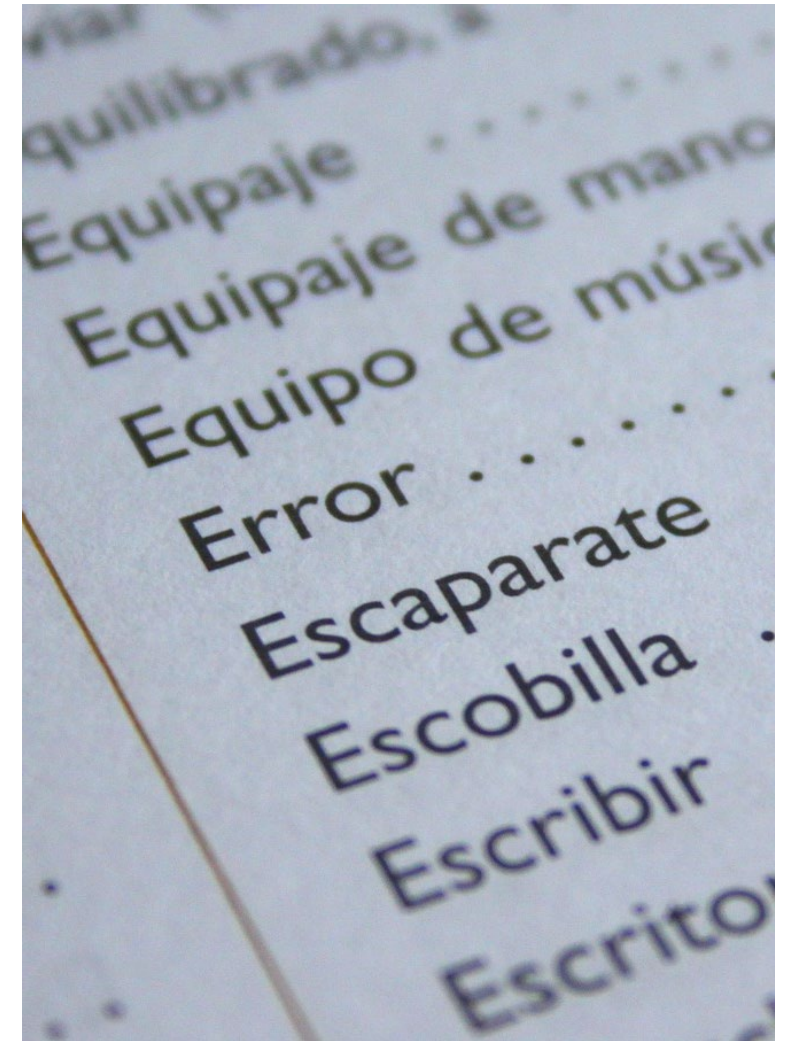

Assigning years to subject groupings:

- Does the student year fall into one of 8 specific cases?
 - Sandwich years out, clinical medicine and dentistry, veterinary science, NMAH, social work, ITT
- If not, use the HECoS code(s) **that describe the course.**
- HECoS codes map to one of 50 **subject groupings** reflecting CAH2 & price group.
- The data on Tables 1 and 2 is then automatically summed into price groups on Table 3
- A mapping of HECoS codes to CAH2 and price groups is in 'Changes to 2025 student data surveys to inform funding'

Quick recap of HECoS and CAH2

- HECoS: ≈1100 codes to describe subjects
- Can be grouped together in the Common Aggregation Hierarchy (CAH).
- 3 levels of CAH – we are using CAH2:

Level	Code	description
CAH1	CAH25	design, creative and performing arts
CAH2	CAH25-02	performing arts
CAH3	CAH25-02-02	music
HECoS	101448	opera

Subject grouping examples

BSc in Physics with Maths - course is described by 3 HECoS codes:

HECoS code	Maps to subject grouping
100425 (physics)	CAH07-01
100426 (theoretical physics)	CAH07-01
100403 (mathematics)	CAH09-01

Environmental science – course is described by 2 HECoS codes:

100381 (environmental science)	CAH26-01 (subgroup B)
100369 (geographical info systems)	CAH26-01 (subgroup C1.1)

Multiplication factors 25-26

Gathering & verifying student number data

- Tables 1 & 2 – record student years of engagement data according to
 - mode of study
 - level (UG/PGT)
 - ‘specific cases’ or CAH2 subject code
- Table 3 – automatically aggregates these into price group structure
- Table 4 – record NMAH student years of engagement

Multiplication factors

- Table 3 – shows multiplication factors and calculated funding FTEs for funding purposes
- Table 4 – shows the same for NMAH professions

Reminder - how multiplication factors inform funding

HESES records 'years of engagement' categorised by mode / level / price group, etc

HESES25 data does **not** reflect:

- the study intensity of part-time students
- historical rates of non-completion.

We use multiplication factors to account for these.

Multiplication factor representations

- If you think an M factor should be amended to better reflect your 2025-26 provision, this can be entered into the workbook
- When you upload a workbook to the portal it will also read in any representations
- No limit to the number of times you can upload
- On 13 February we will take the most recent version of the workbook to identify any representations you want to make
- Representations can be uploaded at any point, but will not be reviewed until **after** HESSES verification closes

HESES25 & Multiplication factors combined timeline

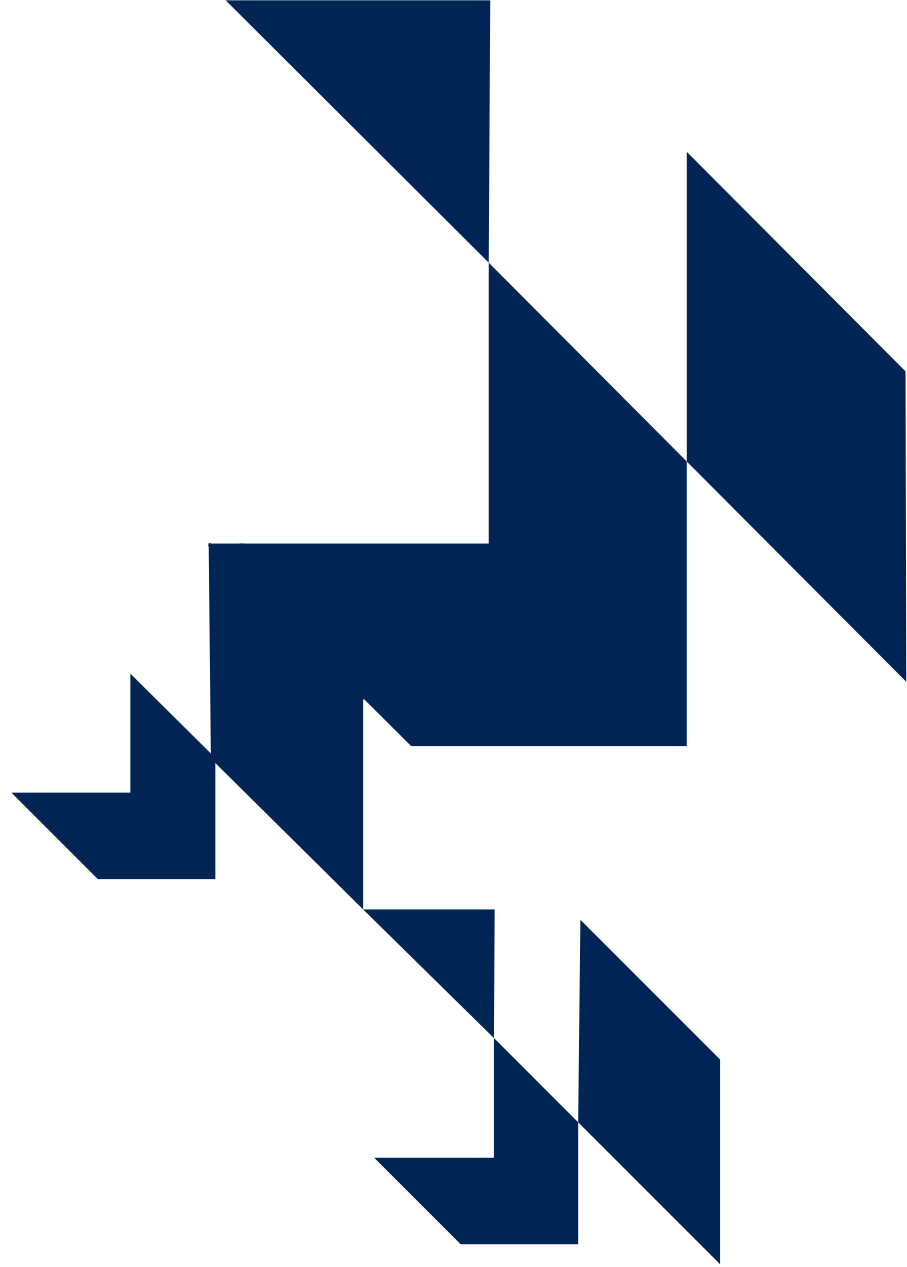

Late October 2025	HESES25 workbook available to download from portal
13 November 2025	Submission deadline for FECs
11 December 2025	Submission deadline for all other providers
30 January 2026	Sign-off deadline for HESES25 data for all providers
13 February 2026	Deadline to submit representations on multiplication factors
Late February 2026	Consider representations
Early March 2026	FTEs to inform funding for 2026-27 agreed
